This will set you up for \$300,000 per annum easily and if you are buying ILOs in companies you love, they are adding to your returns and long term growth.

Some Stats

Coca cola had 50\$ in sales in its first year. They spent another 20 on top of this amount on advertising, but they were first. There are huge advantages to being first, if you buy in today for just \$200.00. You will be first in line to create an exciting business in Initial License Offerings.

Company Crowdfunding is dead, ICOs are gone, IPO market is all dried up, ILOs are unregulated, easy to understand, everyone and anyone can buy and promote them, they are lucrative and fun, if you have a strong social media presence your job is a breeze. If you don't, we will help you gain one.
